

A quick summary of FY '12-'13 Town tree survey conducted by Mayberry Consulting.

- This is the first time the Town has included residential trees that cause conflicts with Emergency and Public Service vehicles.
- The town is responsible for the maintenance of **637 Hardwood Trees**. This includes all hardwoods within our Parks, Facilities and Rights-of-Way. Palm trees were not included in the survey but are numbered at **2120 in varied species**.
- Of those trees species include:
  - 13 Hickory
  - 16 Camphor
  - 30 Magnolia
  - 73 Pine
  - 437 Oak
  - 12 Cypress
  - 10 Elm
  - And other assorted species
- 40 Town owned trees are recommended to be removed for public safety (map included)
- All other Town owned trees are recommended for structural pruning in a three year cycle as follows:
  - **449** to be pruned in **year 1**
  - **51** to be pruned in **year 2** (plus second cut on year 1 as needed)
  - **7** to be pruned in **year 3** (plus second cut on year 2 and third cut on year 1 as needed)
- **1143 Residential Trees** are in conflict or predicted to be in conflict with vehicles within three years. These trees vary in species but are predominately Oak.
- **900 +** are predicted to be in conflict within this calendar year (one growth cycle)

#### Value to the Town

- **Average value of Town owned trees \$12,150/tree** (using USDA "UFORE" model)
- **Approximate value of Town Trees \$6.5 Million**
